

## Ready access from the IV pole:

1. Unfold the hanging tab

2. Hang the Prevantics Device Swab Strip on an IV Pole

3. Remove individual packets from the bottom to the top of the strip

### REMEMBER:

When only one packet is left on strip, remove from IV pole before opening.

# + Prevantics®

# GENERAL GUIDELINES FOR USE:

**Prevantics®**  
3.15% Chlorhexidine Gluconate (CHG) and  
70% Isopropyl Alcohol (IPA)

Device

SWAB

**1.** Look for the words “tear below” (found on back side of packet) and tear downward diagonally to retrieve swab.

**2.** Prior to access, apply swab to the needleless access site of the device by holding swab between thumb and index finger and scrub using repeated back and forth strokes for 5 seconds.

**3.** Allow to air dry for 5 seconds. Do not blot or wipe dry.

**4.** Discard after single use.

**5 second scrub  
time and 5 second  
dry time.**
