

# Wipe Out Healthcare-Associated Infections Without Wiping Out Your Equipment.

## COSTS ASSOCIATED WITH FAILURE TO REDUCE RISK OF HAIs

- Hospitals lose \$600,000 - \$1,100,000 annually <sup>1</sup>
- Biomedical engineers estimate a 20-27% equipment life span reduction due to incompatible disinfectants <sup>2</sup>
- This can result in \$500,000 in additional equipment cost annually <sup>3</sup>

## SURFACE MATERIALS TESTING

Compatibility with plastics, metals, and other common materials is a critical design criteria for PDI formulations.

We continually test for compatibility between our disinfecting products and most commonly found materials in medical devices.

## MEDICAL EQUIPMENT TESTING

PDI works with leading equipment manufacturers to test our disinfectants on their products.

Through our industry partnerships we have been able to verify compatibility on over 1,000 medical devices.

**COMPATIBLE**  
by design™ 

PDI has:

- Disinfectant Expertise
- Medical Device Expertise
- Materials Expertise
- Testing Expertise
- Clinical Expertise

# A Disinfectant Market Leader Dedicated to Superior Compatibility

PDI offers the most trusted brand of disinfectant products and is the market leader in 7,200 US hospitals.\*

## PRODUCT SPOTLIGHT

Super **Sani-Cloth**® Germicidal Wipes are the #1 surface disinfectant product in US hospitals, and formulated with compatibility in mind.

- Super **Sani-Cloth** wipes have a neutral pH which helps minimize equipment incompatibilities
- Effective against 30 microorganisms in 2 minutes

## ENVIRONMENT OF CARE PORTFOLIO

Since no single product is compatible with all surfaces and equipment in your facility, PDI has a full range of disinfectant wipes and sprays for every infection control need. For more information, visit: [pdihc.com](http://pdihc.com)

Partner with PDI today  
and together we can Be the Difference®.
