

Full Line Product Catalog

PDI offers a broad range of evidence-based, market-leading *Interventional Care, Environment of Care, and Patient Care* solutions, all designed to help reduce preventable infections, control healthcare costs, and, ultimately, help save lives. It is all part of our passion to Be The Difference[®], every day.

The environment is a primary, and often unexpected, source of infections. Maintain a clean and sanitary environment with our Environment of Care solutions, which includes Sani-Cloth® disinfectants, the number one brand of disinfecting wipes in healthcare.¹

Sani-Cloth® Prime Germicidal Disposable Wipe & Sani-Prime® Germicidal Spray

Powered by a next generation formulation, protect your patients, staff, and facility from HAIs in just 1 minute.

Sani-HyPerCide™ Germicidal Disposable Wipe & Germicidal Spray

A powerful, ready to use hydrogen peroxide formula designed to address HAI causing microorganisms, including *Clostridioides difficile* without compromising compatibility.

Sani-24® Germicidal Disposable Wipe & Germicidal Spray

A unique Continuously Active Disinfectant that shields against ESKAPE Pathogens for up to 24 hours.²

Super Sani-Cloth® Germicidal Disposable Wipe

Ideal for daily use in fast-paced environments that require a short contact time and broad coverage of microorganisms.

Sani-Cloth® AF3 Germicidal Disposable Wipe

Alcohol free. Fragrance free. Worry free. Ideal for use around patients and staff, especially those with respiratory sensitivities.

Sani-Cloth® Bleach Germicidal Disposable Wipe

Ideal for disinfecting areas contaminated with *Clostridioides difficile* spores and Norovirus.

These products are on EPA's List N³ for the Emerging Viral Pathogen claim, recommended by the CDC for surface disinfection to help prevent the spread of COVID-19.

¹Market leadership claims based on Q1 2021 Clarivate Data.

²CAD addresses *Acinetobacter baumannii* MDR (Multi-drug resistant), *Enterobacter aerogenes*, *Enterobacter aerogenes* MDR (Multi-drug Resistant), *Enterococcus faecalis* VRE (Vancomycin resistant enterococcus), *Enterococcus faecium* MDR (Multidrug Resistant), New Delhi metallo-beta-lactamase-1 (NDM-1) producing *Klebsiella pneumoniae* (CRE - Carbapenem resistant Enterobacteriaceae), *Pseudomonas aeruginosa*, *Staphylococcus aureus*, *Staphylococcus aureus* (Methicillin Resistant) (MRSA)

Sani-Cloth® Plus Germicidal Disposable Cloth

A low-level disinfecting wipe for general surface disinfection.

Easy Screen® Cleaning Wipe

A compatible touchscreen cleaner that works at the speed of technology.⁴

- + Features the power of 70% isopropyl alcohol (IPA)
- + Fast-drying, no residue, anti-fogging, and anti-streaking
- + Rapidly cleans dirt, grime, fingerprints, and smudges⁵
- + Meets AORN's "Guideline for Surgical Attire" to clean cell phones, tablets, and other personal communication or hand-held electronic equipment⁶

UVC Disinfection

Tru-D® Robot

The **Tru-D** robot is a portable UV disinfection system that delivers an automated, measured dose of UVC to consistently disinfect a room, in a single cycle, resulting in the ability to document disinfection results after each and every **Tru-D** room treatment.

- + 20+ validations by independent studies⁷
- + 94% percent decrease in room contamination of epidemiologically important pathogens
- + The **Tru-D** robot operates from one position
- + The **Tru-D** robot's measured dosing capabilities ensure thorough room disinfection
- + Real-time usage-tracking feature provides disinfection documentation to facilities
- + Comprehensive implementation and training for all hospital staff is provided by the **Tru-D** support team

For more information go to tru-d.com or call 800.774.5799

Tru-D® SmartUVC

A PDI SOLUTION

⁴ Consult your manufacturer's instructions for use

⁵ Cleaning the screen of your mobile device with a wipe containing alcohol may reduce the life span of any anti-fingerprint coating. Please check your device manufacturer's cleaning instructions.

⁶ AORN Guideline For Surgical Attire, Section 9. Personal Items, Recommendation 9.2, page 12

⁷ <https://tru-d.com/science-papers/>

Different infection risks require different solutions. Our Interventional Care solutions help you protect even the most vulnerable patients.

Prevantics® Skin Antiseptics

3.15% (w/v) Chlorhexidine Gluconate (CHG) and 70% (v/v) Isopropyl alcohol (IPA) topical skin antiseptic.

- + Swab is approved for preinjection skin preparation
- + Swabstick and Maxi Swabstick are approved for preoperative and preinjection skin preparation
- + Swabstick and Maxi Swabstick are clinically proven to have continuous antimicrobial activity for up to 7 days⁸
- + Premoistened, ready-to-use applicators contain no glass

Prevantics® Device Swab

3.15% (w/v) CHG/70% (v/v) IPA solution for the disinfection of needleless access sites prior to use and tops of blood culture collection bottles.

- + The only 3.15% CHG/IPA solution to receive 510k clearance from the FDA for disinfecting needleless access sites
- + Strip format hangs conveniently on an IV pole for point-of-care accessibility
- + Prep pad design allows for friction scrub and cleaning of threads rather than just the septum of the needleless connector

Profend® Nasal Decolonization Kit

Easy-to-use, pre-saturated 10% (w/w) PVP-Iodine swabstick – just snap and swab!

- + Assured treatment compliance as product is applied by clinician 1 hour prior to surgery
- + Kills 99.7% of *Staphylococcus aureus* at 1 hour and 99.9% at 12 hours¹¹
- + Ideal for *S. aureus*- and Methicillin-resistant *S. aureus*-colonized patients in the surgical unit, ICU, and other areas of the hospital¹²
- + Neat, dry handle design minimizes mess
- + 4 swabsticks per patient/2 swabsticks per nostril for 15 seconds each

⁸2014 Prevantics® Clinical Compendium.

⁹Dry sites only.

¹⁰Hayden MK, et al. A Randomized Cross-Over Clinical Trial to Compare 3.15% Chlorhexidine/70% Isopropyl Alcohol (CHG) vs. 70% Isopropyl Alcohol Alone (Alcohol) and 5s vs. 15s Scrub for Routine Disinfection of Needleless Connectors (NCs) on Central Venous Catheters (CVCs) in an Adult Medical Intensive Care Unit (ICU), Oral Abstract Presented at 2014 ID Week Conference, October 11, 2014, Philadelphia, PA.

Help your patients and residents remain clean and comfortable with our Patient Care solutions.

Sani-Hands® Instant Hand Sanitizing Wipes

Designed for everyone – including staff, patients, residents, and visitors.

- + Contains 70% ethyl alcohol, aloe & vitamin E emollients, and is clinically proven to kill 99.99% of the most common bacteria¹³
- + FDA food code compliant. Safe to use before eating and drinking when used as directed¹⁴
- + Quick drying, leaving no sticky residue

Hygea® Multi-Purpose Washcloths

Suitable to use on all areas of the body, including face and neck.

- + Premoistened washcloth for full body personal cleansing
- + Gentle cleansing formula contains soothing aloe and vitamin E
- + Hypoallergenic, alcohol-free, and latex-free

Hygea® Flushable Personal Cleansing Cloths

Cleans and refreshes better than dry bathroom tissue alone.

- + Ideal for perineal cleansing and incontinence care
- + Safe for well-maintained sewers and septic systems¹⁵

¹³Clinical data is representative of Sani-Hands® (NDC #: 10819-5808-1) 65.9% Ethyl Alcohol formulation.

¹⁴Food Code Recommendations of the United States Public Health Service Food and Drug Administration, 2017.

¹⁵Flush only one wipe at a time. Not recommended for use in motor homes or with basement pump systems.

Products kill bugs, but people prevent infections.™ Our point-of-care accessories help put PDI products in the right place at the right time to help healthcare professionals do their job more efficiently and effectively.

All of PDI’s point-of-care accessories are designed to support compliance with facility protocols.

Sani-Bracket®

Easily attach **Sani-Cloth** and **Sani-Hands** canisters to walls or equipment for convenient access. The **Sani-Bracket** is available in Medium, Large/Extra Large, and Large/Extra Large Double Canister.

Sani-Canister Caddy®

The countertop holder for canisters is perfect for nursing stations and carts. It helps display important product and compliance information, such as contact time and precautionary language.

Sani-TAG® Equipment ID System

Sani-TAG Equipment ID System adheres to surfaces and equipment to help staff identify the specific surface disinfectant that should be used on the particular item.

- + The “Clean Tags” help staff easily identify when equipment has been disinfected and meets regulatory and accreditation standards for identifying clean vs. dirty equipment
- + All Sani-Tag labels remove easily and leave no sticky residue

PDI Safety Stand

The stand holds one canister of product and has optional attachments that can be affixed directly to the floorstand to hold personal protective equipment.
